Professional Summary

Senior Frontend Developer with strong experience building scalable, high-quality web applications using **React, Angular, TypeScript, and modern JavaScript (ES6+)**. Proven ability to work in agile, distributed teams, consume and integrate **REST APIs**, design **reusable UI components**, and collaborate closely with backend, product, and design teams. Background in **Full-Stack development**, solid testing practices, and fluent English communication.

Tech Stack & Core Skills

- **Frontend Stack:** React, Angular, JSX, Hooks, Component Architecture, State Management, Responsive UI
 - **Backend Stack:** Node.js, Python, Go, RESTful Services, Microservices Architecture
 - **Web & Styling:** HTML5, CSS3, Flexbox, Grid, Responsive Design
 - **Languages:** JavaScript (ES6+), TypeScript
 - **APIs & Data:** REST APIs, Fetch, Axios
 - **Testing:** Jest, React Testing Library
 - **Tooling:** Git, GitHub, Chrome DevTools, Figma
 - **Methodologies:** Agile (Scrum, Kanban), Code Review, Clean Code
-

Professional Experience

Software Engineer — GoFasti (Allocated to PlanetBids)

Apr 2024 – Present / Remote

- Develop and maintain complex frontend features using **React and TypeScript**
 - Design **reusable UI components** aligned with scalable architecture patterns
 - Consume and display **REST API** data with proper error handling and performance considerations
 - Participate in **code reviews**, architectural discussions, and agile ceremonies
 - Implement **unit and integration tests** to ensure reliability and maintainability
-

Software Developer III — Iteris

May 2023 – Sep 2023

- Built responsive **web and mobile interfaces** using React and React Native
 - Integrated frontend applications with **GraphQL and REST services**
 - Implemented automated tests using **Jest and React Testing Library**
 - Worked in cloud-based environments using **AWS services**
-

Backend Developer — Control IT

Oct 2023 – Apr 2024

- Developed **REST APIs** using Golang in a **microservices architecture**
 - Collaborated with frontend teams to define API contracts and data models
 - Worked with Git and agile workflows (**Kanban / Scrumban**)
-
